## List of localities

The following list shows all localities in Switzerland served by a public transport route. Generally, stops (railway stations, stops, boat docking stations etc.) carry the name of the locality they serve as well as a more specific label. The name of the location together with the postal code also serves as the address.

In the following cases, the **station** carries the name of locality but is not located there. Consequently, timetables are to be found under the locality where the **station** is located:

### station → locality

Schwyz (Bahnhof) → Seewen SZ

There are a number of stops which do not contain the name of the locality. These are particularly time-honoured names. To facilitate such searches, different **locations** are listed subsequently which are not themselves localities. To find timetables for these stops, you must search for the relevant locality.
